

# SONFLEX

## TESTING & ASSEMBLY MACHINE

Automatic machine with high flexibility

Scara and 6-axis robot

Up to four testing & assembly stations

# SONFLEX

## TESTING AND ASSEMBLY OF SERIAL PARTS

The SONFLEX automatic testing and assembly machine uses a robot to load the series parts into the various testing and assembly stations. Subsequently, the parts are sorted.

### INSPECTION TECHNOLOGIES

- ✓ Optical inspection (2D/3D)
- ✓ Tactile measurement
- ✓ Laser measurement sensors
- ✓ Air measuring rings ...and more

### ASSEMBLY TECHNOLOGIES

- ✓ All assembly technologies can be flexibly integrated

#### Operation

Swivelling terminal with touch screen, keyboard & mouse

#### Products

Parts of all types  
up to 100x100x100mm

#### Performance

Maximum output  
up to 50 pcs/min

#### Benefits

Very high flexibility,  
process extension possible
