

Quality & Safety Policy

At IAR Group, our vision is to lead the automation transformation by combining deep expertise with innovation. We engineer cutting-edge solutions that strengthen our customers' market position and boost manufacturing performance.

From custom assembly systems to advanced robotics, we deliver globally inspired, locally adapted solutions that meet evolving customer needs. Powered by the dedication of our people, we operate as a high-performance organization—driving sustainable success for our customers, stakeholders, and communities.

As part of our commitment to excellence, IAR Group continuously develops, maintains, and improves its Integrated Management System (IMS), covering Quality and Health & Safety, guided by the following principles:

Customer-Centric Value Creation

We focus on the value our solutions deliver, not just the cost, enhancing our customers' competitiveness through tailored, high-impact automation systems.

Partnership with Customers

We build long-term, trust-based partnerships by deeply understanding customer needs and co-developing effective and innovative solutions.

Supplier Collaboration

We maintain strong, growth-oriented relationships with our suppliers, working together to drive innovation and mutual success.

Regulatory Compliance and Integrity

We fully comply with all applicable laws, regulations, and standards, and commit to upholding any additional quality and safety requirements relevant to our mission.

Empowered and Safe Workforce

We continuously invest in our employees' development through training and by promoting a safe, responsible, and fulfilling work environment that supports both personal and professional growth and healthy working conditions. We actively assess and minimize risks associated with the equipment we design and produce to prevent injuries and health issues.

Culture of Continuous Improvement

We commit to the continual improvement of our Integrated Management System and its performance by applying robust improvement methods across all levels of the organization to enhance quality, safety, productivity, and efficiency.

Sustainable Innovation and Growth

We foster sustainable development by investing in advanced technologies and innovative solutions that support the long-term success of our business areas.

Performance-Driven Management System

Our Integrated Management System provides the framework for setting, reviewing, and achieving quality objectives, continuously improving internal processes, and increasing satisfaction for customers, partners, employees, and society at large.

This policy reflects our unwavering commitment to quality, innovation, and responsible growth—ensuring IAR Group remains a trusted partner in industrial automation and robotics worldwide.
