

Environment Policy

At IAR – Industrial Automation & Robotics, S.A., our vision is to lead the automation transformation by combining deep expertise with innovation. We engineer cutting-edge solutions that strengthen our customers' market position and boost manufacturing performance.

As part of our commitment to excellence, IAR – Industrial Automation & Robotics, S.A. continuously develops, maintains, and improves its Environment Management System, guided by the following principles:

Regulatory Compliance and Integrity

We fully comply with all applicable laws, regulations, and standards, and commit to upholding any additional environment requirements relevant to our mission.

Environment

We are committed to environmental protection by actively reducing the environmental impact of our activities, including pollution prevention, improved energy efficiency, and responsible waste management.

Culture of Continuous Improvement

We commit to the continual improvement of our Integrated Management System and its performance by applying robust improvement methods across all levels of the organization to enhance environmental performance and efficiency.

Sustainable Innovation and Growth

We foster sustainable development by investing in advanced technologies and innovative solutions that support the long-term success of our business areas.

Performance-Driven Management System

Our Integrated Management System provides the framework for setting, reviewing, and achieving environmental objectives, continuously improving internal processes, and increasing satisfaction for customers, partners, employees, and society at large.

This policy reflects our unwavering commitment to the environment, innovation, and responsible growth—ensuring IAR – Industrial Automation & Robotics, S.A. remains a trusted partner in industrial automation and robotics worldwide.
